The Steward's report, including that upon secessitous cases, was read and adopted. The total claim for the year was \$8,215, and the deficiency was \$1,277.

The report of the Missionary Committee was received and adopted. The total aniount raised was \$9,6 15; one-third advance upon the previous year, \$203.05 of this amount was cellected on Saturday night at the Missionary Anniversary. This was a most interesting occasion. The Rev. Dr. Wiley, editor of the Ladies' Repository at Cincinnati, delivered a discourse in behalf of the Missionary Speicty of the Kenhalf of the Missionary Society of the Ken-tucky Conference, which was a succinct view of the present status of the world, and tull of enlightenment. He was for some years missionary to China. Rev. Dr. Par-sons followed him with an address, at times himmorons, witty, and pathetic, eventuating in the lifting from the pockets of the stated. The officers of this society for the ensuing year are as follows: J. T. Harrison, President; G. W. Johnson, Secretary; W. A. Dotson, Treasurer. Managers—Revs. Darlington, Lashbrook, and Ressoner.

From all the facts gleaned from various sources of information as well as from daily observations, we are led to the sad sonclusion that the vice of Intemperance increasing at a fearfully rapid rate in our land. It is an especial source of sadness to witness the biighting influence which in-toxicating drinks are daily exerting upon to the young men of our country, multitudes of whom are falling victims to the terrible vice, are robbed of their manhood, and in every sense of the word rendered unfit to exercise properly the functions, or discharge safely the responsible duties of citizens of a free and Independent nation.
Thousands of our young meu—the very flower of our iand, whom the dreadful necessity of war have taken from their homes into the army, and are induced by the influences surrounding them to take Intoxicating drinks to fire up their passions and madden them for the deadly conflict, will return to their homes greatly demoralized, period in onr country's history when as have had greater reason for alarm than at present. This is very far from being a lime for inactivity. It is now that the most vigorous efforts possible should be put forth in order that this great evil may be checked in its work of destruction. n its work of destruction. Therefore.

Resolved, That we piedge onrselves to renew our exertions in promoting and establishing the principles of temperance within the bounds of our charges.

We congratulate him on the brightening prospect of speedily crushing the rebellion; approve his administration, including his proclamation of freedom to the slave, and hereby pledge ourselves to labor for liberty and the clevation of the human race, and to continue to pray for the decreasement. Government, our noble Generals, and brave men in the field, as also for their families at home, in the hope that we shall seen have peace in all the land.

It is confidentially believed that Sherman has reached the Cape Fear river without accident. We could not ask more favorable fortune. The good work speeds so auspicionsly, that in years to come school children will think we are trifling with their eredulity. If we don't get a thrashing before long, we shall grow intolerably

vainglorious. The North Carolina papers, having concluded that the doctrine of State rights is the cause of dissension, are gone to the oth-er extreme, and advocate the obliteration of State lines and establishment of a central government. This is an indication of the absolute Ignorance of southern publicists of the nature of our government. It is impossible to convince them that in overturning the heresies of Calhonu we are not uprooting the foundations of the republic.

The factious, ultra, nuwise and obstinate opposition to the Senators from Arkansas and Lonisiana continues in the Senate chamber. As to the personal merits or denerits of the claimants we know nothing; but abstractly they are certainly entitled to their seats. see how there can be much discussion, or cause for delay in action. The importance of the measure has been settled by the experience of every large city in christendom. It is not a matter of theory at all. The growth of cities in this country has, in one nstance after another, developed the imperative necessity of the measure. The denand for a police force that shall be known by its garb exists wherever the demand Sheridan's victory grows apace. Forty officers, thirteen hundred prisoners, eight cannon, a hundred wagous—but no Early. It is enough. When a city has attained a certain size as to area and population, this necessity becomes irresistible and Is universally acknowledged. But the necessity is present from the beginning in more or dess urgent form. That It has attained the imperative mood in Louisville is we believe more nearly a unanimous conviction of our citizens than anything that could be named.

That a policeman should wear some symbol of his authority is only second in importance to his possession of that authority. Yankees and the Chivalry.

The "chivalry" has one of the characteristics of sublime natural scenery, vlz: of gathering enchantment of view from distance. The snarling din of crimination The repeated denials which come to us from over the water concerning the cession of Sonora to France render it more than probable that there are more eagles than ducks in the story. We have heard a good deal of Yankee love of money and other property, but we have our doubts whether they can give our native-born speculators and extortioners any new ideas on that subject. Judging by the quality of the milk which is sold in Richmond at the moderate price of ten dollars a quart, we should say that a patent had already been obtained here from these their milk on the top, and then turn it over and skim the bottom, and then divide it in ten parts, carefully skimming each part. The love of property, that, in face of the declaration of Gen. Lee that the employment of negroes is a military necessity, refuses to make the sacrifice, needs no importation of New England ideas to invigorate its hold upon goods and chattels. We must do New England the justice to say that its ideas on the subject of defending its own homes from the period of the Indian wars to the close of the American revolution, never went to the extent of refusing any sacrifice which was necessary for the desacrifice which was necessary for the de fense of its soil.

One item not given by our reporter is the following: By the Cincinnati Advocate we see that at 11 A. Rebel Unanimity.

Gov. Brown, of Georgia, is perhaps the most disgusted man in the Confederacy. At any rate he makes the most parade of his disgnst. His late message shows how On the pure merits of the case, we do not great a manimity was accomplished through the reaction of the pcace-negotiation failure. It will be remembered that the grandest results of unity and matchless devotion to the cause, were predicted from that failure, by the high-filers in Richmond and elsewhere in rebeldom. But Governor unitized by it. He says:

Our government is a military despotism, driftling into anarchy, and if the present policy is persisted in it must terminate in reconstruction with or without subjugation. Governor Brown states that he is utterly opposed to both; but if he favored either he would give his earnest support to the policy of the President, as the surest mode of diminishing our armies, exhausting our re-sources, and breaking the spirit of our people, and driving them in despair to seek refuge from worse tyranny by placing themselves under a Government they loathe

and detest.

He opposes the arming of the slaves, believing them to be more valuable as agricultural laborers than they could be as soldiers. They do not wish to go into the army, and the principal restraint now upon them is the fear that if they leave the eveny will make them fight. Importance of Richmond. As nothing is more probable in the immediate future than the evacuation of Richmond by the rebel army and government, and a prompt acquiescence in the measure by the blatant editors of that city, it will have already published. It oecurs in a long comment upon Jeff. Davis's public remark that the abandonment of Richmond would not be fatal to the cause, nor partic-

Let not this fatal error be harbored till it takes root in the imagination. The evacuation of Richmond would be the loss of all respect and anthority toward the Confederate Government, the disintegration of the army, and the abandonment of the scheme of an independent Southern Confederation. The war would, after that, speedily degenerate into an irregular contest, in which passion would have more to do than purpose; which would have no other object than the mere defense or present safety of that any possibility of an independent South would remain after its capital was abandoned, its Government set adrift, and

its army withdrawn into the solitudes of the interior.

Each contestant in the war has made Richmond the central object of all its plans and all its exertions. It has become the and all its exertions. It has become the symbol of the Confederacy. Its loss would be material ruin to the cause, and, in a moral point of view, absolutely destructive, ernshing the heart and extingaishing the last hope of the country. Our armies would lose the incentive inspired by a great and worthy object of defense. Our military policy would be totally at sea; we should be without a hope or an object; without eivil or military organization; without a treasury or a commissariat; without the means of keeping alive a wholesome and active public sentiment; without any of the appliances for supporting a cause depending upon the popular faith and enthusiasm; without the emblems of the semblance of nationality.

the semblauce of nationality.

The war cannot be carried on much longer against us if we prove but true to onrselves; and the single test of success will be our determination and ability to hold Richmond. Other cities may fall, the rest of the Confederacy may succumb; but the canse still remains safe so long as Rich-mond and Virginia are held.

[For the Union Press.]
You ask, "Can nothing be done to lessen these frequent railroad accidents?" The increasing recklessness of railroad officials is appaling. It is indeed. I see it stated that 45 railroad disasters have already taken place in the United States this year, killing 61 and injuring 441. A single New York daily contains accounts of eight of these "accidents." It is said that the railroad officers of Pennsylvania admit that at least 320 persons were killed on their roads in 1864, and 386 injured on thirty-two roads. The decision of all intelligent investigators would be like that of the Ohlo Senate special committee, that while railroads are a public benefit, and should be fostered by all needful and just legislation, it is equally the Legislature's duty to protect the rights and interests of the people who do business upon them; that in the running of trains and management of the road everything should be done the road everything should be done with constant reference to the secnity of the public; that a majority of the accidents might and should have been avoided, and result from criminal neglect to make proper repairs of the roads, rolling stock and machinery, and from the intemperance, incompetency and carelessness of officers and employees; that every railroad company should be required to keep every thing intrusted to it in good repair; to place sentinels at bridges, culverts and crossings in dangerous places; to employ none but competent men in all positions of responsibility; and that all companies, officers, agents and employees be subjected to the payment of forfeltures and penalties for the non-performance of their duties, or the violation of any of the laws, or rules and regulations inade for their government.

Two boys who have had some experience at the case. Inquire at this office.

The friends of the Administration In Lebanon, Ky., had quite a pleasant and extensive celebration of the inauguration of inst. The Provost Marshal's office, a large and commodions building, was the center of attraction. Numerous transparencies were displayed bearing patriotic mottoes like these: "Emancipation." "Free Labor." "Lincoln and Johnson," "Union," "Grant," "Sherman," "Thomas," "Death to Slavery," &c. The Provost Marshal's office was beautifully illuminated, and the display of fireworks was extensive and elegant. About 9 o'clock in the evening the crowd collected before the Provost Marshal's office, and, after repeated cheering, succeeded in getting speeches from F. B. Merimee and Captain Fidler directly supporting the Administration in all its measures, and especially urging the unconditional acceptance of the amendment to the Constitution, so lately and nuwisely rejected by our Legislature. The pleasure of the evening was marred somewhat by the noise of some drnnken soldiers, but, taken as a whole, was a happy festival to the Union party.

Mr. Armstrong, the able Conneilman from the 7th ward, proposes to introduce an ordinance for the establishment of a nniformed police. This will be a very great au vance beyond our present antiquated system. In the first place, there are not nearly eno. ch men on the force at present; and those not personally acquainted with then are often bac. Iy delayed when they have occasion for their instant services. A stranger cannot tell one when he meets him. This is not so in other cities. The police are always known by their "miform and badges; and we have often witne. sed the facility with which their services can be had in case of urgency. Furthermore, the uniform receives a certain degree of respect which is often denied to a man who Miss Hud ou was called before the curtain wears no badge of office. We give the ordinance in another column.

A little Sunday School girl of Shelbyville, Kentucky, desired to do all she could for the homeless women and children from the South, now in Lonisville. It was not in her power to send the Relief Commission a sum of money; but decorating the parlor was a beautiful painting, a frnit piece, the work of her own fingers, and valued by her far beyond its real worth. After quite a struggle in her mind between selfbenevolence, the true spiri gained the throne, and the picture was sent to Rev. Mr. Sedwick, ot this city, to be sold to the highest bidder, and the avails to "be given to the poor refugee." The picture is at Hegan's store, Main street, between Fourth and Fifth.

To start the matter and encourage such noble deeds, ten dollars is offered.

SOLDIER KILLED.-A soldier named Geo. W. Anderson, belonging to co. G,187th Ohio Regiment, was killed by the guard in the front of Maxwell Barracks, Nashville, Tuesday evening. It is stated that the deceased had been spitting out of the window, which is a violation of orders, and he had been notified to stop it, but paying no attention to the command, the guard fired, the ball takidg effect in the small of his Dack, and lodging in his body, causing instant death. Members of his company, ho, vever, assert that just before his death he hat notified a comrade not to spit out of the windo'w, as it had been forbidden, and that he was s, tting in the window with his back to the st. eet. Anderson was from Mt. Vernon, Knox & Tunty, Ohio, and had bn: recently entered the service. He is represented to have been a great favorite in his company.

rested in the city yesterday as a suspicious character, and sent to the Barracks.

As are all official instruments executed by State, county, city, or town officers, in the discharge of their official capacity."

ARRIVED.-The U.S. steamer "Robb," with mails and dispatches for Admiral S. P. Lee, arrived yesterday, from the Mound City navy yard, bound to Cincinnati, She is commanded by Capt. James Touhy, U. S. N., and brings as passengers, Lient. T. A. Harris, U. S. N.; Surgeon J. T. Coates, the flood in the Ohio. U. S. N., and Lient. H. C. Cochrane, of the U.S. Marine Corps. Capt. S. C. MERCER.-We were favored yesterday with a visit from our radical friend Mercer of the Nashville Times. He has not grown much since we last saw him, except in hatred of rebellion and negro slavery.

SPECIAL MEETING OF COUNCIL.-There was a special meeting of the City Council last night. A communication from the Mayor was received stating that the meeting was called at the request of the Finance Committee, in order that the report of said committee for the present fiscal year might be presented and acted upon. An ordinance was adopted appropriating \$381,165 to meet the deficiencies of the fiscal year. Resolutions were adopted crediting the City Tax Collectors, K. P. Thixton and A. Rammers, with the various amounts collected and paid into the City Treasury by them. A costs. resolution was also adopted allowing each of the Tax Collectors the sum of \$700 in addition to their fixed salaries. No other business of importance was transacted. Council meets again to-night.

The Odd Fellows of this city are now holding meetings for a number of nights consecntively, this being the season of the official visitation of the Grand Officers of the Grand Lodge of Kentucky. M. S. Dowden, Grand M., and J. D. Pollard, Grand Rep., and a number of other officers of the Grand Lodge are in attendance. The Society is represented as being in a very prosperous condition in the State. The meetings are occasions of great interest to members of the Society, and are largely attended. They will be continued during the present, and part of next week.

CAPT. STEELE SENDS AN ORDER .- A day President Lincoln on the evening of the 4th or two ago, while the steamer Cuba was loading with corn at some point on the Kentncky shore, Capt. Duncan received a message from Capt. Steele, the notorious guerrilla leader, who demanded from him a bottle of whisky. He apologised for not calling, ln person, on the ground that he had a long ride before him that day, and as he would be compelled to swim several lagoons and bayons he wanted some whisky to prevent illness.

As the Cuba was unarmed and unprotected Capt. Duncan thought it prindent to send the whisky.

BLACKWOOD FOR FEBRUARY.-Leonard Scott & Co., have ready the American reprint for February, which opens with a new story "Miss Marjoribanks," It also has the concluding chapters of "A visit to the Cities and Camps of the Confederate States"-another part of the humorous and profound reflection of the "O'Dowd" and papers on Knight Errantry in the 19th century, Modern Demonology-Entoniana and Gladstone. Civill & Calvert receive subscriptions at \$4 per year.

THE FAIR. - The fair ut Masonic Temple, under the anspices of the German Ladies' Aid Society and St. Lucas Society, is progressing finely, and will prove a decided success. New features of attraction are being constantly added, and an evening could not be spent anywhere more pleasantly. The proceeds of the fair are to be devoted to the erection of a new school-house.

LOUISVILLE THEATER.-Miss Leo Hudson, in "Mazeppa," attracted another full house last night. The play, as presented the Lonisville, is the grand success of the sea on. At the conclusion of the play. and most ent usinstically received by the andience. "Maz. opa" will be repeated to-

The Superintendent of the Workouse informs us that no colored men have been confined in that institution except those committed by the Court. He denies that negroes have been confined there in rons for no other reason or offense than that they refused to go into the army as substitutes, placed there by unprincipled men who hoped to profit by their operation, Somebody is evidently mistaken about it.

Messrs, Editors: I would not trouble you and the public further, but for the misrepresentations made by German & Bro. in their card in the city papers, on the morning of the 8th inst. In that card the Messrs. G. & Bro. make nse of this language:

That we have not been acting unlawfully lighographing or selling the labels, has en decided by the Chancellor of the Lonisville Chancery Court, in a snit in said court, which Mr. McGill brought against us to enjoin us; but, on hearing the case, the Chancellor refused to grant the injunc-tion, and dismissed McGill's petition, with

It is a rule of evidence in the courts, I be lieve, that when a witness knowinglo speaks falsely as to a material fact, he is not to be believed at all. Now, the above statement of German & Bro. is utterly false, for the reason that it is intended to conthe idea that my applicavey tion to the Chancellor for an injunction was refused, whereas it was grunted, but was not perpetuated. They also wish to convey the idea that the case was heard upon its merits by the Chancellor, whereas the truth is that, upon a preliminay motion in the case, the Judge came to the conclusion that the Chancery Court had no jurisdiction in the matter, and made this order: "The case is dismissed for want of jurisdiction." Does this look like the idea conveyed in the following words: "That we have Gold Still Lower .- Closing at 196. not been acting unlawfully in lithographing or selling the labels, has been decided by the Chancellor of the Lonisville Chancery Conrt."

The other statements of this card are about upon a par with this. It requires the face of men who have dealt with the property of others as German & Bro. have with mine to enter the public prints with a card as full of nntrnth as theirs.

HDQ'RS DEPARTMENT OF KENTUCKY, LOUISVILLE, Ky. Feb. 25, 1865.

General Orders No. 4. Reliable evidence has reached these headquarters that emissaries of the rebel Gov-ernment are engaged in recruiting for their exhausted armies in the State of Kentucky. Appeals are again made to the young men of the State to disregard their duty and risk their lives and honor in a wrecked and desperate cause, while men who have deserted the rebel service and are now peaceably at their homes are required to rejoin their commands, again encounter the perils of treason under the threatened penalty of betrayal to the Federal anthorities, who, they are taught to believe, will treat them

ns outlaws and gnerrlllas.

To counteract these efforts to mislead the men who have, in good faith, deserted the rebel service, all deserters from the rebel armies, now in this Department, will, within thirty days from date, report themselves to the Provost Marshal of the county in which they reside for registry. And all persons who may hereafter desert from the rebel armies and come into this Depart-ment will, within five days after their arrival report themselves for the same pur-

Proyost Marshals will receive the report dence, and the particular military organization from which they have deserted. Such registry will be regarded by the military authorities of this Department as a distinct rennnciation of all further connec-tion with the rebel Government and as entitling the registered person, who demeans himself as a peaceable citizen, to military

protection.

Persons who refuse to present themselves for registry as required by this order will be understood as adhering to the rebel government, and, if captured, will be treated as sples, guerrillas, or otherwise, according to the captureness of the captu o the circumstances of the case.

High Stage of Water in the River. Suspension Railroad Operations.

NEW YORK, March 8 .- The Herald's City Point correspondent, writing on the 6th, says there is no longer any doubt of Sheridan's movement up the valley having been crowned with complete success. The been crowned with complete success. The concurrent testimony of all the deserters and refugees to-day, from Ord's right, north of the James, to Meade's extreme left, beyond Hatcher's Run south of Petersburg, is that he surprised and encountered the rebels under Early at Waynesboro, nearly midway between Staunton and Charlottesville, utterly routing and capturing the entire force and sourcing amount the prison. tire force, and securing, among the prisoners, the doughty General commanding. It is admitted by the rebels, according to the stories of deserters, to have been the most overwhelming affair of the war in propor-

tion to the numbers engaged.

Very few details have been obtained bearing a stamp of reliability, but the whole region is represented as being unprepared for this sudden advent, and are fleeing in every direction to escape his relentless squadron.

The accounts agree so well in every particular and are in perfect accordance with what was expected and known, that all are constrained to believe that Early and his army are indeed captured. Scouts report Sheridan in Staunton on Thursday. The capture of Early occurred the next day. By Saturday Sheridan would be in a condition to push for Lyuchburg.

NEW York, March 8 .- The Tribune's Washington special says:
It is reported from Hancock's headquarters, at Winchester, that Sheridan had defeated Early, but that Early is not cap-

The Herald's Wilmington correspondent The Herald's Wilmington correspondent of the 23d says that they have there confirmation of previous reports that Gen. Sherman had reached Cape Fear river. It is said that he had struck that stream sixty miles above Wilmington previous to the lst inst., thus completely spoiling the rebel plans for effecting concentration against him and forcing him to give battle in the vicinity of Goldsboro, at which point they expected to have a combination of advantages in their favor, which would insure his defeat.

The Wilmington Journal, in its issue just previous to the occupation of the town by the national forces, admitted that Sher-man's movements, if he was not soon checked, might have the effect of compell-ing Lee to abandon Richmond and Peters-

burg.
The Herald's City Point dispatch says: It is positively known that, on the 24th of February, Sherman was at Camden, S. C. on the Wateree river, a little over 100 miles southwest of Fayetteville, on the Cape Fear river, which town, it was believed, he has

before now reached.

Rumors in the Army of the Potomac on Sunday last that General Sherman had defeated Johnston in a heavy battle, and cap-lured 1,500 prisoners.

The Herald's 5th corps correspondent

says: It is reported that for some weeks a large force of negroes have been throwing fortifications along the banks of the Roanoke river.
Several months since many old and ex-

experienced officers surmised that, if Lee was compelled to fall back from his present position, he would form a new defensive line along that stream, and will add greatly to the difficulty which an attacking column would have to overcome. The siege guns from Petersburg and Richmond have been sent off in that direction, via the Danville railroad, and many things seem to indicate that his army will soon be en route for some place.

NEW YORK, March S .- The Herald's Wilmington correspondent, writing on the 3d, makes no allusion to the reported junction of Schofield's force with Sherman's Schofield was busy perfecting plans for the con-tinuance of his campaign in North Car-

nas been unpropitious, a light drizzling rain falling nearly all day. The rise during the 24 hours ending with 6 o'clock last evening had been 19 or 20 inches, with about 40 feet water on the falls and 60 feet water in the chanuel at the foot

The present rise is 6 or 8 inches below the freshets of 1862 and 1859, fully 7½ feet below the flood of 1847, and 8 feet 2 inches low the flood of 1847, and 8 feet 2 inches less than the memorable flood of 1832.

The rates of cabin passage are \$75 00 to New Orleans; \$20 to \$25 00 to Memphis, and \$15 00 to Nashville.

Owing to the flood of waters the shipments of freights to and from Cincinnati are very meagre. The star Gray Eagle from Hen-derson had about 7,000 bushels of corn.

We learn that Capt. Irwin, at Memphis, had disposed of his steamboat stock, the Dove and the S. B. Young. 'The latter he had but recently purchased.
